Stratford, Aug. 2 (CP)—Ontario barbers Monday asked Labor Minister Chazy of Ontario to take action to insure that barbers be certified from a recognized school of barbering.

The request came as a resolution passed by the 26th annual convention of the Ontario Provincial Association of Barbers here.

Philip Hallier, Hamilton, was elected president of the association, with Nelson Cox, Brampton; George McDonald, Ottawa; Ann Walsgrave, Stratford; Jack Windsor, Sarnia; and Earl Patterson, Ottawa, vice-presidents. Eric Muir of Toronto was elected secretary treasurer.

The 1930 convention will be held in Ottawa.

A resolution calling for an additional \$200 a year provincial death benefit was also passed.

## Ford Workers Likely to Be Out For 'Long Time' Tour Thru Rapids

Detroit, Aug. 2 (AP)—Ford Saturday told the 10,000 production workers they are likely to be out a long time if they carry their strike threat.

The warning was in a company memorandum urging all 10,000 Michigan Ford workers to vote "no" in a state-conducted strike starting a week from Monday.

The United Automobile Workers (C.I.O.) countered with a charge that Ford is trying to "scare" and "bribe" his employees.

Granting the U.A.W.'s pension, insurance and wage demands would raise labor costs, and this would "bribe" workers, said the Ford House organ.

New, in a page-one editorial, "Increased costs now mean increased prices and increased prices mean fewer sales," the editorial said, "That means fewer jobs."

The Union reply was contained in a leaflet entitled "More Purchasing Power Means More Security," distributed Monday among Michigan Ford workers.

## Ontario Govt. Willing to Meet Federal Cabinet

Toronto, Aug. 2 (CP)—Acting Premier Duncraft said today the Ontario government would be "very glad" to meet the Dominion to discuss the complex Dominion-provincial issues.

"This government would be quite willing to consider any suggestion they wish to make," said Mr. Duncraft, highway minister in the Ontario cabinet who is acting for Premier Frost, now on vacation.

Mr. Duncraft was commenting on an Ottawa dispatch which said press conference statements made Monday by Prime Minister St. Laurent could be interpreted as a feeling that Ontario and the Dominion may get together before another general conference on Dominion-provincial tax issues.

The dispatch quoted Mr. St. Laurent as saying, when asked if he could foresee a Dominion-Ontario conference this year, that he obtained the impression speaking to Mr. Frost "that both Mr. Frost and I want to get those things done which should be done on the basis of their merits."

## Major L. Hill Makes Barrell Tour Thru Rapids

Niagara Falls, Ont., Aug. 2 (CP)—Major Lloyd Hill today has his first "barrell" tour "through" the swirling rapids and eddies of the Niagara River.

The 30-year-old riverman today has a 20-hour tour of the rapids behind him and already is planning for the next journey.

The 30-year-old riverman today has a 20-hour tour of the rapids behind him and already is planning for the next journey.

Half an hour after he reported he would not make the trip, Hill changed his mind, and crawled through the hatch of his lake 500 feet below the whirlpool and rolled and bumped his way three miles down the turbulent current to Queenston. Then Hill said he will resume his barrell tour later—Sept. 5.

Hill was rescued Saturday by his brother, William (Red) Hill, who swam to the tide and attached a line to it.

Major Hill was injured by the rolling drum as he was crawling out of it and was taken from the grip in a life-saving basket.

Only a few spectators witnessed the journey. The barrell made a clean shot into the rapids where it bounced and twisted in foaming water. It came to within seven miles downstream, the rock of the hydro station at Queenston. The motor boats guided it to the wharf.

And then was the last note of all: "My neck is paralyzed, doesn't hurt anymore."

That was about 8 p. m. Lt. Calles died, of bulbar poliomyelitis, at 9:20 the next morning.

## Immediate Danger Is Past In Dread Locust Threat, But Vigilance Is Unrelaxed

By MONTAGUE TAYLOR

Loughbo, Aug. 2 (Reuters)—The dreaded locust threat to East Africa and the Middle East has been quieted, for the moment.

Dr. D. P. Uvarov, world famous authority on locusts, has been quoted by the press as saying that the "immediate danger" has passed.

With an expert staff at the Anti-Locust Research Centre at the British Museum of Natural History, he has been directing the offensive against the locusts.

Exact Facts Unknown

"We still will be prepared," he added, "for we do not know the exact details of the situation in the interior of Arabia. There might be some recrudescence of the threat in the winter, so we are not relaxing our vigilance. We are making comprehensive arrangements for scouting parties in all accessible areas."

A vast offensive was launched about a month ago when the masses of invading swarms of locusts from Arabia threatened

Britain's Asian protectorate. The immediate danger was that the locust swarms might spread into British Somaliland, Ethiopia and Eritrea, and eventually into British East Africa.

Battle-front headquarters of the East African desert locust survey at Nairobi, Kenya, have co-operated with the research centres here. While P. N. Stephenson, director of the locust survey, led operations on the spot, Dr. Uvarov and his experts have kept the men in the field normally at short range as new locust invasion and have maintained supplies to the "battle front."

"Every day news of every move of the campaign has been telegraphed to London and warning telegrams of any new 'front' transmitted back immediately to the men on the spot."

Victory was signalled when the locusts were reported to be swarms were "very disturbed" after the first week's full-scale operations on many "fronts." These days the locusts are the swarms had mostly disappeared.

## Soon Ten Million Britons on TV

London, Aug. 2 (CP)—It is computed that when Britain's third television transmitter is built at Holme Moss, near Huddersfield, Yorkshire, a population of about 10,000,000 will be "on the beam."

Now, the nearest village to the television station, is two miles from London.

It was one of the most successful tournaments ever staged by the local club and to Cliff Argue and his committee goes the thanks of all members for the fine event. The weather was most delightful, there were many visitors at the meet, throughout the day and

the spirit of hospitality reigned supreme. His Worship, Mayor D. A. Storey and president A. H. Wrenn, in the name of the club, presented a check for \$100.00 to the first start as they welcomed the visitors from near and far and hoped for all a delightful holiday and good-bye. Then, the greenkeeper, John Leach, had the greens in excellent condition and all were loud in their praise of the arrangements made on the golf course. The first draw started shortly after ten o'clock and from then until the early hours of today, the greens were a busy place. The winners of each match were crowned with each other for top honors. There were six Bellevue rinks in the tourney and the winners of the tourney were successful in winning three matches although the majority of them scraped out with two victories.

**Other Winners**

Three game winners were A. Wallie, W. Connors, T. McCann and Robert Bell of Hamilton who captured the four top bridge teams in the district. The bridge team of the late J. W. Pye, G. MacFarlane, P. ## Petes Defeat Oshawa 3-0

Peterborough, Aug. 2 (CP) Peterborough Marines defeated Oshawa Merchants 3-0 today in a final COBL game behind the five-hit pitching of Bill Dadsen. The win narrows Oshawa's league lead over Marines to 1½ games.

Successful was also Ed Menzies of the Wolves in the sixth, followed by Dan Brown's double to left sent Ross Knights to the showers. Ed Foley then greeted Bill Ginterich with a hard single to score Brown and give Dadsen a margin sufficient to win.

The fielding of both teams was good with Howie Dalton, Fred Garvey, Dan Brown and Ed Foley outstanding for Marines and Oshawa. Fred Bidgood and Paul

## OFF THE SPORTS BLOCK

By **GEORGE H. CARVER**, Sports Editor

Fan-shaped curtains of foam shot up in the opening wakes as the two boats roared for the start. The minnie gun had gone. The hurdling craft kissed the water with wild shrieks. It was a mad race. Officials, newspaper men and radio men on the barge held their breaths. There was a sudden hush on the spectator-crowded slopes of the shoreline. A minnow slapped its tail against a boat. It was quite audible. "Giz" and "Belgian" were the first to start. They were full gun when the start-line. There were even and a muted "Oh" went up from the barge-crowd and the crowd. The boats were a full 50 yards but only four seconds away from the rear of the start-gun.

On the barge all eyes turned towards Referee Bob Finlayson and Commodore Sparks of the American Power

newspaper and radio men, officials and others, performed their allotted tasks in a commendable manner. There were no hitches to the proceedings. The different events were run off with only seconds separating their start time to that scheduled.

And they added plenty of color to the nautical drama. Blessed with a well-known and valued "cleare", the added scenic effects of craft of every description including certain units of the Royal Canadian Navy, the gay colorful crowd that thronged the tree-fringed shorelines, rounded out a sumptuous picture that would be hard to beat anywhere in Canada.

Unusually using heroes of such events, members of the Ontario Provincial Police and Royal Canadian Mounted Police did yeoman service in their various capacities. Traffic control was a serious problem, but the police and the "army" came through with no casualties. A good job well done.

DID IT EVER HAPPEN TO YOU?

He was a mean-looking critter. Eyes close together in a long narrow face and head. Eyes that never blinked, and had the cold look of the killer. We involuntarily shuddered

and wanted for a Johnny-dun, or a squid of polter as he was closer to us. His mouth opened. Fang-like teeth were bared as he seemed to snarl defiance. He came closer. We gripped the stick we held and waited. He was almost within striking distance, when he suddenly turned and darted away. We eased the grip on the stick—then as we remembered he might return, suddenly tightened our hold.

Sure enough, he was coming back. His lithe slender body moved with the grace of a greased cobra. He moved from side to side swaying like a well-trained boxer in action. He held our breath and waited for the next attack. Again that snarling look of defiance as he drew within reach. This time he was not feeling. Realizing that, as he drew closer

## Skip-a-Long Wins Harmsworth Cup From Such Crust

Detrol, Aug. 2 (AP)—Stanley Dolan and his speedster Skip-Lap now have the Harmonator in the hands of the Harmsworths of Detroit and they expect to give the best hot lead in it. Dolan, who has been in the car for a week, says it "could work up a lap of 75,233 miles an hour." The Harmonator was built in 1935 and was 68,337 miles an hour when it was first tested. Dolan says the finish resulted from the first lap, but that the car has greater speed out of the start. Dolan says that the car has a 100-horsepower engine and a half a ton of weight. The Harmonator run-off race on the Detroit track was held last night. Dolan and his car were the only ones to finish. Dolan says the car is "the best in the world" and that it is "the best in the world" and that it is "the best in the world."

after one lap of the stiff but because of line trouble, and the same difficulty hampered her in the second effort.

The two-mighty engine craft had duelled all season. Their rivalry stretched over 10 weeks. The Fish Crust took the first heat in the Harnsworth race, and today came back to win the second.

The run-off was to determine the possession of the international trophy. It also was to

to determine—officially—whether the next challenge was to be met in Detroit or Dillier's home port, Lake Tahoe, Calif.

Two years later, the United States Navy retained the historic trophy when R. Stanley Dillier's Skip-a-Long took the second heat of the speedboat classic. Canada's lone challenger, Miss Canada IV, finished fourth.

The victory gave the unified States team two races. Jack Schaefer's *Such Crust!* I having won the first heat Friday.

At the Canada TV relay was unable to get top speed out of her Rolls-Royce power plant. Harold Wilson of Ingersoll, said trouble developed Friday in his boat's super-charger and that he and a crew of engineers were unable to remedy it.

Dollar, from Lake Tahoe, California, set a heat record in winner Saturday, with an average of 10.5 seconds.

## 'Bunny' Weeks Leaving Army After 38 Years

Ottawa, Aug. 3 — (CP).—Mr. Gen. Ernest G. (Bunny) Weir, C.B., C.B.E., M.C. and bar, M.C. and bar, is leaving the army, at least for the time being, to make room for others because he remembers when he came

the conclusion—after 12 years as a Captain — that the brass never quit or died.

After 35 years of soldiering he brought him four gallantry awards, took him through about every rank from private to Major-General and saw him as a key figure in the reorganization of Canada's post-war army, goes on retirement leave as a Lieutenant-General August 15.

He leaves behind an enviable

record as a soldier both in action and at a desk. But the military small fry will always remember him particularly as a big human being who could always be seen with a minimum of red tape and would go to almost any length to eliminate injustice.

As Adjutant-General after January, 1946, he had a great deal to do with demobilization and organization of the peacetime army. His job put him in charge of manpower of discipline, of the handling of the individual's needs such as medical, dental, spiritual and financial. He handled it with a warm sense of humor and humanity.

He says he has no immediate plans other than to do some fishing, golfing and gardening while he and his wife ponder what they should do. They have one son, William Alwyn, 17, who is set

## No Trace Found of Four Bandits Who Held up Aga Khan

Le Châtel, France, Aug. 4. (CP)—Thousands of police today searched southern France for the four bandits who stole a fortune in jewels from the Aga Khan and his wife.

Bandits were thrown up from Marseille to the Italian border all along the Riviera—playground of the world's wealthy—on the sprawling port of Marseilles, known as a criminal hide-out.

Hundreds of cars were stopped, but no trace has been found of the robbers who preyed on the Aga Khan and the queen outside their villa here and grabbed jewels worth \$750,000 and \$200,000 from 1800 in cash.

Police guards around the mansions of the rich have been doubled. Many of the millionaires here are reported driving private detectives as an additional security.

The Aga Khan's offer of \$500,000 reward for information leading to arrest of the bandits had received no response so far.

A Paris Journal, *Peuple*, announced today that the jewelry worth \$15,000,000 found in 1933 was based on a Lloyd's insurance policy.

In the last few days, bandits have gotten away with about \$1,000,000 in the robbery of a bank at Aix-la-Provence, the theft of jewelry in a store at Montpellier and the robbery of the Aga Khan.

The independent Paris newspaper *Le Figaro* said: "All the police of France, and all the governments must be mobilized."

The anti-gangster newspaper *L'Humanité* said the wave of banditism in France calls for cabinet action toward moderating the police.

The Communist paper *L'Humanité* said if Interior Minister Jules Moch mobilized his police less against the workers "the dangerous bandits' conspiracy with equal impunity, as they are doing every day."

Police found the abandoned automobile used by the robbers of the Aga Khan near the sea of the crisis. There was no indication, however, that the author-

ities had any share in the law the men organized their flight.

The Aga Khan's big ransom payment, paid in a restaurant in Cannes last night without any grudge, leaves this afternoon by plane for Marseille to visit the Aga's son, Prince Aly Khan, and his Ray-

# A Bargain for Baby!

**Jewel-Like, Polished Plastic BRUSH and COMB SET**

REGULAR 71 VALUE

**ONLY 25c**

**WITH 6 LABELS FROM LIBBY'S BABY FOODS**

### THE DHOMIE QUINQUETTES

Now charming and healthy girls of 15, their survival was one of the miracles of our time. During their critical baby days, their doctors prescribed Libby's Baby Foods—the only baby foods which are both strained and homogenized.

## ONLY LIBBY'S BABY FOODS OFFER THESE EXTRA BENEFITS

Libby's gets the only baby foods which are both strained and homogenized, and they are at least 10 times finer in texture than foods which are only strained. Here are two ways in which this exclusive Libby process may benefit your baby.

**EASY DIGESTION**

Homogenization breaks up the food cells before the process of digestion begins. This takes some of the burden from baby's immature digestive system and permits quick, complete digestion.

**MORE NOURISHMENT**

Because the work of digestion is made easy with Libby's, baby gets full benefit of all the nourishment in his food. Actual feeding tests have proved that baby gets more nourishment from the same amount of Libby's.

Here is a real bargain for baby. A brush and comb set of polished plastic—regular \$1 value—yet you can obtain it for only 25c when you enclose only six labels from Libby's Baby Foods. The brush has extra soft Weynes plastic bristles and handle of sparkling pink or blue polystyrene, a sturdy new plastic material of jewel-like brilliance. The comb is clear polished plastic with rounded teeth that comb smoothly. To get this beautiful set for your baby, just send us your name and address, clearly printed on any piece of paper, or use convenient coupon below. Enclose 25c in coin and six labels from Libby's Baby Foods—any varieties—see list below. But hurry, hurry—our supply of these sets is limited and we may have to withdraw this offer without notice. Act now and avoid disappointment.

Just send your name and address clearly printed on any piece of paper, or use this convenient coupon. Send 6 labels from Libby's Baby Food and 25c in coin, and state your color preference. Send to Libby's, Toronto, Canada, P.O. Box 177.

## RADIO AND COAT

### RAIDED IN BUREAU

Unusually, (the police have an excellent idea of who it broke into the Anderson Planting Company, building, 107 Columbia Street, over the weekend, pilfered a radio and a man's coat and made his getaway.

Unfortunately for the gentleman involved, he disposed of the radio in a second-hand store. The police on a routine check discovered the name of the man who sold it.

They went to the building, which had not been used since Friday night, and the radio was found in a window on the south side of the structure. Police say the radio was sold the radio is a former employee of the firm.

## NEGRO SOCIAL CLUB

### WANTS CITY ON TOUR

Seven-hundred negroes stopped here today for the last time of a "one-day tour." They are representatives of a social club, from approximately 14 from Brooklyn, N.Y.

The group, under the leadership of William Allen, president of the club, visited Niagara and Toronto, and are now enroute to Montreal.

# Kitchener Wins Championship

London, Ont. Aug. 2. (CP)—An eighth-place knock-out from the post-hat of outfielder Jack Kitchener, mowing two runs, gave Kitchener a League championship victory over London Majors and the Canadian County Grammar School team on Saturday night.

Kitchener, defeating champions, forced the sudden-death game when they won the opener of the doubleheader. The London Majors won the first game of the doubleheader, 4-3, but Kitchener's win in the second game, 1-0, gave him the championship.

# Hambletonian Will Have 18 Starters

Quebec, N.T. Aug. 2. (AP)—A bulky field of 18 starters, second largest in the history of the race, was indicated today for the Hambletonian Stakes Wednesday night at Woodbine Park.

The latest check, through the barn at this time of horses racing, shows 18 starters in the event brought up the names of four additional horses not previously mentioned in the program.

If all known candidates have been in the barn, it will be the largest field since a record 19 starters were in the field in 1934 when Tim Haver was won in two straight heats.

Latest to come into consideration are Penelope Haver, owned by the Pashley Bros. of Toronto, T. J. Prince, owned by T. J. Prince, and T. J. Prince, owned by T. J. Prince.

**POLICE EX-CONVICT STAGE MASS BATTLE IN CHICAGO**

In today's story, these two Chicago detectives were caught in a momentary battle, and then they were taken to a living target. When the police were all over, three policemen were wounded, one ex-convict was dead. The small-time battle began when Edward Coleman, an ex-convict, shot at an officer who tried to prevent him from leaving the scene. Coleman was shot in the chest and taken to a hospital. The police then searched for Coleman and found him in a rooming house. Coleman was shot again and taken to a hospital. Coleman died of his wounds.

## Charles Favored Choice to Whip Gus Lesnevich

New York, Aug. 10. — (CP) — Smart Charles has been riding atop the heavyweight boxing world for some time now, but he has not been able to win a fight in over a month. He is now in a position to win a fight in a month, but he is not sure if he will. He is now in a position to win a fight in a month, but he is not sure if he will.

European approval and the 25-year-old puncher would then be king of the ring. But Woodcock's "now you see me, now you don't" attitude, his upcoming mystery with Lesnevich, and his recent loss to a positive puncher, yesterday he said, as he said, as he recovered from injuries sustained in a recent amateur bout.

Everybody — that included the New York Commission, the National Board of Boxing Control, and the New York State Athletic Commission — seems satisfied to have the winner of tonight's bout. Lesnevich, who was the winner of the fight, is now in a position to win a fight in a month, but he is not sure if he will.

## Kiwanis Win 24-4, Scorer Faints in Wild, Weird Game

No wonder baseball scores are crazy. Another game like that of the Kiwanis Club at Point Anne at the Fair Grounds last night was a wild, weird game. The Kiwanis had a 24-4 lead at the end of the first inning, but the game was so wild that the score was 24-4 at the end of the game. The Kiwanis had a 24-4 lead at the end of the first inning, but the game was so wild that the score was 24-4 at the end of the game.

## CHIPS OFF THE SPORTS BLOCK

The somewhat confused heavyweight picture should be partially clarified tonight when Charles, Cleveland, meets Gus Lesnevich of Clifton, N.J., over the fifteen-round bout at Yankee Stadium. When Patsy walked to victory over Jerry Joe Walcott last year he was the National Heavyweight champion. Lesnevich, a former heavyweight champion, Joe Lesnevich was with the NBA and as far as that organization and the Sports Illustrated is concerned, the title is at stake tonight.

the 101-member Assembly on Thursday, Churchill rapped what he called "crippling limitation" on assembly debate imposed by the council's committee of foreign ministers.

The committee of ministers, representing the 12 governments which formed the council of Europe, is the guiding body of the new European organization.

The committee has the power to decree what subjects shall be debated by the Consultative Assembly.

Churchill and other advocates of some form of European federation hope the assembly may be

the forerunner to a genuine parliament of Europe, with legislative powers cutting across national boundaries. At present the Council—divided into a consulta-

# U.S. Defence Secretary Pays Visit to Ottawa

Ottawa, Aug. 12 (CP).—The United States Defence Secretary, James G. Thompson, arrived in Ottawa on Sunday and declared there to be no real difference between the U.S. and Canada in any aspect of defence.

Lord Johnston, the defence secretary, said that his country could have never spent a more worthy while in any of his life than in the last few months, understanding people—no are brothers in the sense of peace.

At a press conference later, he said "we discussed the whole field of defence in a most pleasant, happy and co-operative way."

He approved a plan to exchange U.S. and Canadian military equipment without restriction. Canada's reserves of U.S. dollars, he said, did not make it possible to acquire a unified U.S. Canadian command.

Mr. Johnson told reporters there has been very little difference between the U.S. and Canada on atomic energy. He pointed out that the U.S. and Canada are on atomic energy. He pointed out that the U.S. and Canada are on atomic energy.

The Merchants Advertising on This Page  
Are Co-operating in this Contest Which  
Gives its Readers an Opportunity of  
Winning a Weekly Prize of \$5.00.

HERE'S HOW YOU WIN:

Each week in one of the advertisements a word will be "Scrambled". Read the advertisements, find the scrambled word, unscramble it, and send it with the name of the advertiser in whom it appeared to the "Contest Editor," Ontario Intelligence, Box 190, Belleville. All answers must be in by the THURSDAY following publication, and winner will be announced the next week in a Business Directory. The winner will be drawn from among the correct answers, and a cheque for \$5.00 mailed promptly. No members of the staff of the Ontario Intelligence or their families are eligible for a prize.

## Gloves are off for Keenest Election Battle in Generation

Windsor, N.Z., Aug. 13 (Reuters).—With New Zealand's parliament now in its final session, the gloves are off for the keenest election battle in a generation. The Dominion's general election is due in November, but a definite date has not been set.

When the 64-year-old prime minister, Peter Fraser, leads his Labor Party to the polls, he and his colleagues will be fighting for survival after 14 years of uninterrupted rule.

The National Party, sole parliamentary opposition, has been whittling away the government's majority in a previous "now-or-never" mood.

Neither side has yet announced its election platform. The National issue is whether New Zealanders, having experienced conservative authoritarianism, now prefer to call a halt.

Labor claims its reforms have made peace and order, but its policy is to bring back the old New Zealand economy, established social and economic security on a scale unknown before, and redistribute national income more equitably as well as increasing real incomes and personal assets.

In a typical utterance, Fraser recently reported to the annual Labor Party conference: "Not one of our New Zealand voters has ever stood a standard of living not exceeded by any other country where people are the most secure in their property and to democratic freedom has been added economic freedom."

## Demand for Scotch Whisky Reduces Supplies in States

By CHARLES WHITING  
Baltimore, Md., 13 (AP).—The worldwide demand for highballs with a Highland flavor has reduced Scotch whisky supplies to the lowest level since the days of prohibition in the United States.

Whisky leaders say that there is no need for a drought. The big Scots whisky companies are private distillers, and their supply will be able to roll out the barrel fast when demand goes down now.

War-time curbing of whisky production hit the industry hard. Many thousands of gallons of Scotch were lost in military action. Reserve supplies are depleted.

The picture is improving, however. Last year the industry produced 15,000,000 gallons, distilled 15,000,000 gallons. This year it hopes to produce 20,000,000 gallons, distilled 20,000,000 gallons earmarked for export.

Malcolm G. Macdonald, secretary of the Scotch Whisky Association, admitted that stocks of whisky have never been lower over here

**LONDON BOYS SPORT GREEN HAIR**  
These London, Ont. boys are the centre of interest as they show the latest thing in juvenile coiffures—green hair. The coloring occurred accidentally in the city's swimming pool. To remove algae from the floors of the tanks, copper bismuth is dissolved into the water. Too much was added. Result: green hair—Central Press Canadian.

## Albert Matthews, 2,294 Candidates Contest 400 Seats In W. Germany

Windsor, Ont., Aug. 13.—Albert Matthews, 76, Ontario's Lieutenant-Governor, 1877-86, died Saturday at his summer home, Cliverville, in this Muskoka district community. Mr. Matthews, a Toronto business man, had been in ill health for several months.

The square-jawed distinguished looking financier, churchman and scholar was the province's first Lieutenant-Governor. He served two terms. He was succeeded in office by the present Lieutenant-Governor, Hon. Ray Lawson.

A native of Lindsay, he started his business career as regional manager of the George Matthews Company, a hardware store in London, England, and later in Ontario, Canada, and Toronto. At the time of his death, he was senior partner of Matthews and Company, a Toronto investment house.

Mr. Matthews was a director of the Executive Life Insurance Company, a director of the Toronto General Trust Corporation, and a director of the Canadian National Trust Corporation.

The farming community, predominantly National, criticized the government less for its bulk-marketing policies than for "forcing" much money into spending in the wrong direction.

Labor is defeated, much of the legislation of the last four years probably will remain in force, although the National Party, which has been in power to repeal an act passed last year to increase the national production of Scotch whisky.

Mr. Matthews also took an active interest in university work. He served on the Board of Governors of McMaster University for 12 years, retiring last year because of ill health. He received honorary degrees from McMaster, Acadia University, the University of Toronto, Queen's University and the University of Western Ontario.

He was chairman of the Canadian delegation to the First World Economic Conference in Geneva, Switzerland, in 1927. Surviving besides his wife, Mrs. Matthews, are two sons, William and John. The Whitesides of Lindsay, are his parents. He was born in 1877.

## GOOD CITIZENSHIP is a lot of little things

**DO NOT HINDER FIRST-AID TO THE INJURED**  
The most important rule in the event of an accident is to keep cool and act quickly. If you're not trained in first-aid send for a doctor, a policeman or someone who is. And do so quickly. Don't.

You can help this public service effort. Make a note of some of the little things which, in your opinion, contribute to Good Citizenship.

Lieut.-Governor Defeat Napanee  
Of Newfoundland By 5-3 Count

Ottawa, Aug. 18. (CP)—Newfoundland, Canada's newest province, Wednesday got five new dignitaries—a lieutenant-governor, a chief justice and three senators.

The new lieutenant-governor is 60-year-old Sir Leonard Oulton, who will take office Sept. 5 when the present lieutenant-governor, Sir Albert Walsh, resigns to become chief justice of the Newfoundland Supreme Court.

The three new senators are Ray Thompson and Maj. Alexander Hald of St. John's and George Penny of St. John's. They are the first appointments since the terms of the sixteenth Newfoundland legislature ended in 1947.

Their appointments gave the Liberals 17 of the 102 seats in the Upper House. There are 15 Progressive Conservatives and 10 Independents.

**HUNDREDS OF OTHER BIG PRIZES**

These 1949 GM dreams and many other valuable prizes will be awarded to the winners of the Kiwanis Safety Campaign "Use Cars and Courtesy" Competition.

All you have to do is display a 1949 Kiwanis Safety Emblem on the rear-view mirror of your car and drive carefully and courteously. Drivers who merit it, and whose vehicles "wear" the Kiwanis Safety Emblem will be reported to "K" Headquarters by the Official Observers at award points for their good driving habits. The most often reported will be the winners in accordance with the regulations.

**Purchase your Emblem TODAY!**  
You may win a valuable prize and you will help make Ontario Safer for all

Kiwanis Safety Emblem costs \$1 each and may be purchased from Kiwanis Campaign Representatives, or direct from Kiwanis Safety Campaign Headquarters, Room 1608, 330 Bay Street, Toronto, Ontario M5H 1T7.

A wack, m's... they're not all  
rusty. I said, I'll sort out the  
ones some time, but G wizzlerizes,  
m, I'd stopped to do it now I'd  
never get this deck cleaned out  
I said, and m's said, I hope you're  
not kidding me. I said, I know  
that mass of tangled black string-  
A wack hee, m's, I'm going to un-  
tle it and make a neat ball about  
of it, but I'm too blitzzy to do  
it now. I said, m's said. And he  
anyways, it ain't black, it's golden  
white string. I said, and m's said,  
Maybe it was white at some stage  
and gone light and later turned  
black. I said, that grimy jar of old

## SCOTT'S SCRAP BOOK

By R. J. SCOTT

**Little Benny's Note  
Book**

I was taking a Saturday walk with pop, and he said, 'How do you feel, Benny?'  
I feel fine, I said, and pop said, 'I'm glad to hear it, because I feel a bit depressed and I was afraid you might be contagious.'  
Well G, pop, why should you feel any worse than me? I said, and pop said, 'There must be a reason, but I can't imagine what it can be. Bizzness is good, and I had a physical check up yesterday and the doctor told me I had absolutely no blood pressure of any kind, and I remembered to take my vitamin pill this morning. By golly, I believe I need

professional shoeshine. It's been a long while since I sat like a king on a shoeshine stand, watching with kindly tolerant eyes as common mortals passed by, while a strong man bent his back in humble servitude over my shoes and spent 10 of the 60 minutes of my life watching them shine and gladden. By golly that's just what my flagging spirits need, he said.

And when we came to the barber shop pop got up on the shoeshine stand and the man who shaved him said, "About 5 minutes, saying, 'That'll be 30 cents.'"

That's impossible, my last shoeshine only cost 15 cents pop said and the shoeshine man said, "That must have been way back before the war. Thirty cents is my price and I don't know how I live on it he said."

Here it is and here's a dime.

AT THE BELLE — Fred Astaire and Ginger Rogers, possibly the most famous of all film partners, are reunited in "The Barkleys of Broadway," their tenth co-starring picture, and their first together in Technicolor. The new M.G.M. picture featuring pianist-comedian Oscar Levant, is showing today and Monday at the Belle.

## British Political Leaders Realize Coalition May be Election Outcome

By FRASER WIGHTON

London, Aug. 22 — (Reuters) — The campaign for Britain's general election has started almost a year ahead of the date the government intends to make its appeal to the country.

The first round of the battle, fought between Prime Minister Winston Churchill on the one hand and Conservative leader Anthony Eden on the other, has been a tactical one, rather than a political one.

The main contestants realize, however, that circumstances may produce a deadlock suitable only by a return to coalition government.

Before the 1945 general election which swept the Labor party into power, Conservatives, though not organized in the constituencies, were confident that the personal popularity of Churchill would ensure at least a modest working majority in the new House.

Today, Conservatives have a highly efficient constituency organization. Labor party leaders have been fighting consistently to dispel the "sitting pretty" mood of many in the ranks.

This mood has been encouraged by the fact that the government has still not lost to its opponents.

election any seat which it won, or held, in 1945.

Neither party is basing its election fight on the assumption that coalition may be the outcome.

Labor, its recovery plans rejected by international trade recession, is preparing for an election in which schemes for the "second five years" of Britain's welfare will have to be related to the country's struggle for economic survival.

The Conservative party will seek to convince the electors that while the international economic problem is not the fault of the Labor government, the government has shown ineptitude in handling the British crisis and has been too much preoccupied with the pursuit of doctrinaire socialism.

Capable of swinging the election result is the orthodox Liberal party. In 1945, nearly 125,000 people voted Liberal, nearly 9,000,000 Conservative, and nearly 2,250,000 Labor.

Then, National Liberals — a splinter party, led by Ramsay MacDonald's famous "national government" — were in the list with the Conservatives, and will do so again. In 1945, they polled more than 150,000 votes.

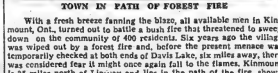

## Farm Worker Admits Slaying Of Three Women

Fort Wayne, Ind., Aug. 22 (AP) — Police said Sunday night a 30-year-old celery farm worker had confessed to the slaying of three Fort Wayne women who were in the car of Ralph La-bauch, now under death sentence.

Police Chief Lester M. Isenhardt and Sheriff Harold S. Zeil of Allen county said a statement admitting the slayings was made by Franklin Clark, who has been under arrest since Wednesday.

A joint statement by the two officers said "it is true this man has confessed to the slayings of Wilhelmina Hagee, Anna Kuefeli and Phyllis Conner."

The slayings of Miss Kuefeli and Miss Hagee were two to which La-bauch, now under sentence to hang for the same crime, said Dorothy Howard of Fort Wayne, also admitted and then denied.

TOWN IN PATH OF FOREST FIRE

With a fresh breeze fanning the flames, all available men in Kilmount, Ont., turned out to battle a bush fire that threatened to sweep down on the community of 600 residents. Six years ago the village was wiped out by a forest fire and, before the present menace was temporarily checked at both ends of Davis Lake, its miles away, there was considerable fear it might once again fall to the flames. Kilmount is 35 miles north of Lindsay and lies in the path of the fire, which here in an air view, which is being fought by more than 100 men in picked crews.

# Film Board Has No Fear Of Television

Ottawa, Aug. 24 (CP)—The Ottawa Film Board initiated today its new line of attack on television. It told the Royal Commission on Arts and Science Development, in a 22,000-word brief, would call for increased demand for film in the 25 per cent of United States television programs consisted of film.

In Canada motion picture production is still greater than in television, partly because of the difficulty in obtaining live programs and partly because of the lack of relay facilities.

The Film Board said it not only is prepared to supply Canadian television systems with film to participate directly in video programming by bringing "live" television to rural areas not serviced by regular video channels.

Plans on Rural Circuits

The Board suggested it would "live" video programs of film and place them on rural circuits not covered by video stations. In this way it would bring television to the outlying areas which could not afford television.

To meet the future demand for film on the television screen and Canada's current film needs, the Film Board needed more money. Community film audiences, the Board claimed, have tripled since the Second World War; municipal film libraries have increased from 44 to 235 in four years and some 200 local councils have been established.

The Board also wanted to expand its staff greater security. The C.F.B. staff are currently on only three months' employment contracts to take care of at one time.

# Hospital Bill \$3,000,000 More Than Expected

Victoria, B.C., Aug. 24 (CP)—The British Columbia government today announced that its hospital bill for 1954-55 was \$3,000,000 more than expected.

B.C.'s first budget, taken from a British text, that health security costs money, wound up with a total 25 per cent of United States television programs consisted of film.

Should be increase payments on the province's compulsory health insurance scheme or have the government, shelve the demand.

With the most premium paid due Oct. 1, the bill would be made up this mid. Meanwhile, treatment under the benefit plan, estimated at \$12,000,000.

Health Minister George S. Brown, under whose jurisdiction the scheme was inaugurated Jan. 1, 1949, estimated in the provincial legislative assembly last year the hospital plan would cost \$12,000,000 the first year, but there were contingencies that couldn't be estimated.

Premium of \$20 for a couple with a family or other dependents, \$24 for a man and a wife and \$13 for single persons were set.

But the people who "forgot" or "didn't get around" to paying premiums presented an insurmountable task will cost the government.

Hospital costs had increased during a year because of higher wages and other factors. Health Minister Pearson said yesterday he had set up a \$2,000,000 stabilization fund just in case this happens.

There has been some speculation that the government might use as an alternative to increasing the C.F.B. staff are currently on only three months' employment contracts to take care of at one time.

# English Miners Drifting Back

London, Aug. 24 (CP)—Coal miners began drifting back to work today in the pits of Northern England, where a short-lived wildcat strike threw 75,000 men into idleness for 24 hours.

The loss of coal already is estimated officially at \$22,000,000.

The walkout was called by 588 mine elevator operators in Yorkshire and Lancashire against the new safety regulations. The strikers men, working wages increased, stopped work Saturday.

The Yorkshire miners agreed to go back to work after a conference last night with officials of the National Coal Board, which runs the state-owned pits. The Lancashire men called for a meeting for tonight to decide their next move.

# Three Policemen, Prisoner, Passerby Hit in Gun Battle

New York, Aug. 24 (AP) — A police station was shot up in West 24th Street and a passerby whistled through Brooklyn streets Tuesday night as police and a bolting prisoner fought a running gun battle.

The prisoner, hit by several gun bullets, was recaptured after a two-block chase.

Three policemen and a passerby were wounded, none seriously, in the fusillade of 26 shots.

Frank H. Davis, 25, grabbed a policeman's gun from his holster and made a break for freedom in a blouse of gunfire. He was being questioned at the police station.

Davis was reported in serious condition today.

Little Benny's Note Book

Pop was puffing all his mile on his cigar without getting hardly any smoke to blow out, saying, "Well, naturally, how else could you draw the smoke out?" ma said, and pop said, "I mean a hole where a hole belongs." I'm pulling like a steam engine and not getting through smoke to smoke a fly, he said.

I suppose you'd rather be getting enough to choke yourself, ma said. You've to be glad and gratified, she said, and pop said, "As a matter of fact I'm sick and mortified."

The less nicotine you can draw into your system the happier you are to be for land sakes, ma said. Really, William, I mean really, the idea of a full grown man getting red in the face in deliberate effort to poison himself, it would cure you of the cigar habit for life. Nobody looking at you as the present moment could possibly believe that people actually spend fortunes to go to the country or the sea shore for the sole purpose of breathing in fresh air, she said.

Now I'm drawing like an angel, a brown steam from Texaco, pop said. I must of smoked past the hole, like I said, she said. About what, my dear? pop said, and ma said, Oh, such a man. Meeting him,

blowing, he said, and ma said, William! Pop! I don't believe you heard a single word I said. About what, my dear? pop said, and ma said, Oh, such a man. Meeting him,

# '93 TO BE WORST POLYMER YEAR U.S. HISTORY

## Foundation Says Peak Not to Half-Year Mark

New York, Aug. 26 (AP)—The poly epidemic may not have reached even the half-year mark yet, and 1949 is certain to be the worst poly year in United States history, says the National Foundation for Infantile Paralysis.

The score on the basis of the Foundation's latest report: 17,000 cases so far in 1949. 3,422 new cases reported in the United States last week.

The total of reported cases through last week compared with 1948 for the same period of 1948: the second worst poly year up to that time.

In 1948, which had ranked as the worst epidemic year, there was a total of about 30,000 reported cases.

The figures and prediction of a "poly" epidemic, which is a form of infantile paralysis, was first reported by Dr. H. E. Van Pelt, the Foundation's chief epidemiologist.

"Study of previous patterns of poly incidence," he said, "indicates that the epidemic is not over yet, and that the epidemic is not over yet."

## Success of CNE Already Assured Before Gates Open

Toronto, Aug. 25.—(CP)—Financial success already assured, the 70th Canadian National Exhibition will be a success story, according to

by Viscount Alexander, Governor General of Canada.

The 25,000-seat grandstand is already sold out for 1,000 of the fair, except for 2,000 seats which will be available after the gates open.

General Manager Edward Hughes says he could have sold the Grand and Johnson grandstands for another week.

All exhibition space has sold long ago and exhibition officials say most of the rest money is already in the bank.

The Broadway commission day, a full-scale dress rehearsal, was held last night for C. N. E. directors, civic officials, and members of the armed forces who made donations of uniforms for the exhibition.

Members of the city council and Board of Control, some of whom had attended last year's show as "musicians" and "musicians" announced this year's version pure.

Striking—cleaning trucks later began work of the fair's million of employees washing down the roads with disinfectant spray for the health of the city.

## TO THE CITIZENS OF BELLEVILLE:

In this advertisement we have tried to give a complete financial picture of the Community Swimming Pool trend as it is to date. And in this short letter we hope to tell you a few facts relating to the physical features of the pool.

Preliminary blueprints have already been submitted to us by the Arthur S. Letch Company of Toronto, who will supply the filtration pumping and other fixtures for the pool, and we hope to have an illustrated drawing for public display in the near future. The installation planned is 60 feet wide by 120 feet long, with a wading pool for youngsters that measures 40 feet by 60 feet. These pools will accommodate approximately 700 bathers at once, and we think will prove adequate for Belleville's growing needs. The bathing house will be completely equipped with showers, toilets, foot baths, and changing facilities. Competent and experienced personnel will be in constant supervision.

The estimated cost of the completed installation is approximately \$50,000. We hope, with your co-operation, to be able to offer to the citizens of Belleville both young and old, the most modern up-to-date swimming facilities in Eastern Ontario. The site for this pool is now being studied, and you may rest assured that the best possible location will be selected.

The Kinmen Club will be appealing to you through various ventures in the coming months, and we hope that you will endorse our efforts with your generous support.

Tomorrow the Kinettes are holding a Tag Day, and they are donating the entire proceeds to the Swimming Pool Fund. May we, on their behalf, solicit your support and ask you to contribute generously.

# Tons of Sand Being Collected From Marshes

Chesler, England, Aug. 28.—(CP)—A giant sand "vacuum-cleaner" pumping dirt and sediment is scooping up tens of thousands of tons of sand from the tidal marshes of the River Lee.

Saturated and is short through two miles of pipes and spilled out on the seagay shore near Gateshead on the Cumbria side at the head of the estuary. The poured sand is compressed into the firmest of building foundations. A lot of sand is to be used to blast furnaces and coke ovens which will be built on it.

Netherland engineers are using the technique developed by the Dutch navy for the construction of Zeeland. Experts hail the Dutch know-how as of world importance in future development of marshy waste elsewhere in Britain.

The future move in at high speed over the sands of Den, the setting of Charles Kingsley's famous ballad. But most of the time large areas form dry pasture, and some are in this state.

The Dutch engineers flooded in their apparatus on the high tide and sawed it. When the water receded the steel blades of a 1,000-horsepower rotary pump began sucking sand to a depth of 60 feet below sea level.

The removal process has created a huge bank, the banks of which were in the marshes of mud and sand and mud rising to the mouth of the green "vacuum-cleaner".

At the shore end of the big pipes, the engineers and their workmen brought from The Netherlands a large machine, slow over a gently graded site, the water receded the steel blades of a 1,000-horsepower rotary pump began sucking sand to a depth of 60 feet below sea level.

When this project is finished, The Netherlands have more in a similar job across the river near Canals Quay on the Welsh side, where a new power station is to be built on the flooded marshes.

Engineers men say The Netherlands technique can be used elsewhere, such as at industrial sites out of marshland.

# Method to Add Color to TV Is Disclosed

New York, Aug. 28 (AP)—A method for adding color to television without the use of black-and-white system was disclosed Thursday by the Radio Corporation of America.

In its announcement here, R. C. A. made these claims for its system:

1. Existing sets, without any converter or adapter, can receive color telecasts in monochrome.

2. Color receivers, or present-type sets equipped with present-type sets in both color and black-and-white.

3. Stations can use present transmitters to send in color the addition of a small amount of equipment.

4. A station could send some of its programs in color, for the benefit of owners of color sets and some in black and white.

Owners of present-type sets not equipped for color would not miss the difference in the telecasts, and would see both types in black and white.

# Brighteners

Pittsburg (AP)—Motorists crossing the 15th Street bridge in Pittsburg, Mo., paint job these days. They can get a free car wash at the other end of the bridge and like the splinter work design.

Albany County figures that the best it is about 100 to 150 drops down on cars while the bridge is being painted.

A big sign informs travellers: "Painting Overhead. Stop at other end of bridge to have paint splashes removed."

Sherwood, Mo. (AP)—Patrick Henry is going into business here as a "brightener" for cars. He will sign of "Oliver M. Liberty."

His business: Professional boned.

Cum gratia State Prison Farm, Ala. (AP)—A trusty and a pecking prisoner who was sent to guard both escaped yesterday—about the trouble here.

They were identified as Robert Cobb, 37, serving five years for armed robbery, and Willie Ball, 25, two years for cattle theft.

Cobb, the trusty, was assigned to work on the latter pile of peas in the prison garden.

He was caught by the guard, then held up a motorist with Cobb's pistol, then left on a two-wheeled contraption in his car.

Birmingham, Ala. (AP)—A one-time auto racer who measures exactly five-by-five has an excessive weight makes him slow to know whose line it was something about it.

Henry Cobb weighs 357 pounds, 10 steel pole feet 10 feet and there without food for 100 days.

The 52-year-old heavyweight says it's all in the interests of science.

"Anything can be cured by fasting and drinking pure water," says Cobb, who is 60 inches tall and 60 inches around the middle.

He plans to drink two glasses of water a day.

A small house, six-by-six feet, has been built atop the pole for Cobb's comfort.

"I don't want the wind to blow me away up there," the bulky one explains.

Sydney, (Reuters)—An Australian customs officer went "bubbling" and caught a whopper but the owner got away.

He noticed several Chinese fishing over the water and 60 inches around the middle.

## Mackenzie's Column Anthony Eden Pleads for Halt To 'Bickering'

By DEWITT MACKENZIE  
(Associated Press News Analyst)

The not-to-be-happy opening of the Anglo-Canadian-American preliminary talks in Washington on the British-guarantee economic crisis has been preceded by what might be called the British "preliminary" statements—Anthony Eden, deputy leader of the Conservative Party and former foreign secretary, made a speech in which he pleaded for a halt to "bickering and hard words" between Britain and the United States. Some pretty bitter language has been used since the Atlantic summit by American sources who charge Britain with having failed to make an all-out post-war effort for recovery; by British who accuse the United States of interfering in their socialist program.

It Trans-Atlantic news calling takes the place of "unpleasant understanding and stern effort," said Eden, "then we can well gain except Moscow." . . . Relations between the British Commonwealth and the United States are much more than any political party in either country. They are the consolidated mass for \$120,000,000,000 for the next five years. . . .

Another side  
A couple of days before Eden made his speech, Tom O'Brien, London leader and labor member, had delivered a speech in which he summed American big business as "the enemy of the labor government" and said Britain might be tempted to join the Communists in "the struggle against the United States."

That was the first time I had heard about the conspiracy to join the British government, but of course O'Brien had said it before. He wouldn't have voiced it. Just in passing. . . . I think it is safe to say that the check some of our investigations "in the United States" as a whole (even "in" or "out") are neither "intelligence" nor "beliefs." I've never been a magazine but my observation is that you have to move pretty fast mentally and mentally to qualify as a magazine.

### Understanding Needed

However, that a mere detail. The point is that "bickering and hard words" could do a lot of damage at this juncture. As already indicated, the talks in Washington regarding Britain's crisis aren't indicated, the talks could serve to prevent the kind of misunderstanding that has been the cause of so much trouble. . . .

One of the chief problems is that to deal with the \$148,000,000 dollar shortage, London has had to hope for help from the American help in some form.

Whether such a major help in spending will ease the way for the negotiations isn't yet apparent.

The current conversations will be followed by the formal conference of great minds in Washington. An informal down to the Labor government says that the United States will be in the final stages of the war.

Washington talks fall. . . . The United States is in a difficult situation. . . .

the western European economic crisis. . . .

## Quebec Province Reports Deficit Of \$31 Million

Quebec, Aug. 27 (CP)—Quebec had a net deficit of the 1940-41 fiscal year of \$30,900,100.

Provincial Treasurer, Eugene Gagnon Friday night disclosed the final figures for the year while Premier Duplessis said the deficit was \$31 million.

Mr. Gagnon reported that the province had a deficit of \$18,469,247 but ordinary expenditures of \$19,744,344 had added a surplus on ordinary account of \$35,705,103 but capital expenditures of \$66,525,247, of which \$30,900,100 went to road building—reduced the surplus to a deficit.

Mr. Gagnon's statement contained the detailed figures on the fiscal term ending March 31. It was a reversal of the optimistic figures presented to the legislature during the last session. The net funded debt stood at \$24,842,375. Mr. Gagnon said, "The deficit of the province is the result of the economic crisis." . . .

## Supply Ministry Worried About Cost of Sick Pay

London, Aug. 27 (CP)—An investigation is under way by the Supply Ministry to determine whether the cost of sick pay to employees is being reduced. The Supply Ministry, £1,250,000 (\$3,000,000) in the last ten months and the government is determined to know whether the cost is justified.

Under the National Insurance Act, the 65,000 workers in the Ministry's Royal Ordnance factories are allowed full pay for 13 weeks a year for sickness. In event of illness for a further 13 weeks, they are paid 75 per cent.

Workers often draw extra funds from their "sick club." This means that some are better off than when they are at work. . . .

As part of the government investigation, personal appeals will be made. Jack Jones, personal secretary to the Supply Minister, is visiting 20 of the more important factories for heart-to-heart talks with workers.

"I am reminding them on behalf of the government that if they exploit the National Insurance Scheme at the expense of the decent fellow," said Jones.

Since National Insurance went into effect in 1925, it has benefited claimants by Royal Ordnance factories by about 20 per cent. The amount of time taken off also has been reduced.

Official say they are convinced some men are feigning illness. In the first year of the insurance scheme as a whole, there were 7,000,000 new claims for sickness benefit. Claims rose to a peak of 25,000 a week in February and now run about 10,000 a week.

### NAY TETED

Liverpool, 26 (CP)—The crew of the United States navy destroyer Charles R. Ware—one of several U.S. warships paying courtesy calls to North Scotia ports last week—had a party time here. In three days the U.S. ship will be in port for three days and a dance and the ship will get on its way to the ball.

### FREE MOVE

Vergoville, Alaska (CP)—Yarmouth, N.S., has a new harbor in a recent storm. A high tide broke through the dam and left the ship in the ditch of a nearby bay.

### LINCHY DECEASED

It takes 10 years before the old man's structure of the mind is complete.

Latvian refugees ship towed into Halifax after perilous voyage. Loaded with persons fleeing Communist-dominated Latvia, the tiny Baltic schooner Anslava drifted helplessly in the rough waters of the North Atlantic for two days, with a mother and newborn child.

It won't be long now. Fifteen-year-old Edith Allen got a welcome whiff of oxygen as rescuers completed the job of digging him out of a sand pile under which he was buried for 40 minutes. Entombed during a slide at the exhibition, Hamilton's Robert was unconscious when his picture was taken but recovered shortly after. The dog was wedged into the sand behind his head to prevent further slides.—(CP Photo)

## Supply Ministry Worried About Cost of Sick Pay

London, Aug. 27 (CP)—An investigation is under way by the Supply Ministry to determine whether the cost of sick pay to employees is being reduced. The Supply Ministry, £1,250,000 (\$3,000,000) in the last ten months and the government is determined to know whether the cost is justified.

Under the National Insurance Act, the 65,000 workers in the Ministry's Royal Ordnance factories are allowed full pay for 13 weeks a year for sickness. In event of illness for a further 13 weeks, they are paid 75 per cent.

Workers often draw extra funds from their "sick club." This means that some are better off than when they are at work. . . .

As part of the government investigation, personal appeals will be made. Jack Jones, personal secretary to the Supply Minister, is visiting 20 of the more important factories for heart-to-heart talks with workers.

"I am reminding them on behalf of the government that if they exploit the National Insurance Scheme at the expense of the decent fellow," said Jones.

Since National Insurance went into effect in 1925, it has benefited claimants by Royal Ordnance factories by about 20 per cent. The amount of time taken off also has been reduced.

## Princess' Marriage Allowance \$2.50 Daily When Duke is at Sea

By NORMAN CARRIBERS  
(Canadian Press Staff Writer)

London, 27 (CP)—Princess Elizabeth will be entitled to a marriage allowance of 15s 6d (\$2.50) a day when the Duke of Edinburgh goes back to sea in his ship, the *Albatross*, in October.

Whether the Princess will actually accept the money neither the duke nor the princess has said. The Princess is expected to be in the ship for 12 months. She will have to work hard for the allowance and for his own help with the expenses of £1 1s 6d a day.

The first lieutenant in the destroyer, Chequers, leader of the 20th Flotilla, is expected to be in the ship for 12 months. He will have to work hard for the allowance and for his own help with the expenses of £1 1s 6d a day.

think of it merely as a cross between a football scrimmage and a tornado, pop said. I'll buck the line and brave the wind, he said, and she said, William: Do you mean you'll get me the nylon? Naturally, my dear, pop said of course I won't be the same man afterwards. My eyes will be bloodshot, I'll have very few teeth left and practically no buttons, and all my muscles will ache but no more than my bones. I'll just have enough strength to fall into bed, and enough ambition to remain there indefinitely. So my dear, if you had any vague idea of dining with me downtown and going to a movie afterwards, you'd better abandon the notion, he said.

William, are you serious, when how wonderful, she said. In

## Brand of Communism on Jap Repatriates Creates New Problems

Tokyo, Aug. 26 (AP)—Since late in June nearly 20,000 Japanese have been repatriated after four years of imprisonment in Russia. Now thousands more are pouring into the repatriation port of Matsuyama in the year's third "big" return.

Most Japanese are wondering what tactics the communists will employ in the future. The first wave late in June came into port lastly after communist songs. On the train trip to their homes they stopped at important stations to participate in rowdy communist-relativist welcoming celebrations. Many ignored their waiting relatives to go first to communist party headquarters.

The second group, arriving late in July, obviously had been drilled to use different methods. One shipboard refused for the day to get out the routine repatriation forms. They did so when informed they must remain aboard until they could be taken to their homes.

Ordinary Japanese say they don't understand why these new acts in such "un-Japanese" fashion.

At first the Japanese press concentrated reports of flag-raising, cheering and other communist welcomes. They said little or nothing about those who did not participate but who quietly went home.

The first repatriation shipload gave evidence that the seemingly-unanimous red front

was not as solid as the communist leaders tried to make it appear. Some said they wanted to "think things over" before joining the communist party. Others said they had a "change of mind."

The first impression has been reported recently by an increasing number of interviews with repatriates by newspapers throughout Japan. While many declared they were glad to be signing up with the communists, the majority said they were not. Family ties and traditional respect for parents were cited as reasons for not joining. Many said they had no interest in the party. There is, however, a real problem of the future of the repatriates. There is a real problem of the future of the repatriates. ## Extra Safety Precautions Taken At United States Ammunition Dump

By WILLIAM FEARY  
McAlester, Okla., Aug. 27 (AP)—Work at the government-owned United States naval ammunition dump near McAlester can be embarrassed by a fire.

Once a shipment of steel and powder from the South Pacific area was reported for testing, loading and storage.

A grim looking sub-bombing in capacity was in the line. The workers carried it to the testing area and opened it cautiously.

"And no wonder," says Capt. R. J. Jones, the commanding officer. "It was just plain, sweet, 100-pound sack of sugar."

Workers at the base figure it something like moving about the kitchen with a cake in the oven—very delicate.

It isn't the work that's easy. They say easy is the only way to approach it because this is a base where tons of explosives are stored carefully into about 100,000 stacks.

"Safety" means any "if the safe and important work around here it has to be that way. We can't afford to take any chances."

## Unique Council Hard at Work On Proposals

Strasbourg, France, Aug. 26 (AP)—A unique international parliament, not yet three weeks old, is hard at work on proposals for political and economic unity of the world.

This is the council of Europe's consultative assembly, made up of 101 representatives from 12 countries. It has been meeting here since Aug. 10 to study means of promoting unification of Europe.

Now at the half-way mark in its initial session—scheduled to close Sept. 10—the assembly has developed a consciousness of itself as a group aware of its responsibilities and eager to expand its authority.

Representatives have received and are now examining in committee projects for a federal parliament, the creation of a single economic department for Europe, joint public works programs, common citizenship, a European supreme court to defend human rights, a single portal system and others.

Following the unanimous election of the assembly's president, Paul-Henri Spaak as president on the second day, the assembly asserted its independence in two ways.

# Yankees, With 3-Game Lead Over Red Sox Face Gloomy Future Without Tom Henrich

By JOE REICHLER  
(Associated Press Sports Writer)

New York Yankees won a knockdown Sunday and picked up 1½ games on Boston Red Sox, but faced the future today without hot future.

Unless a miracle happens, the American League leaders will be forced to play the next three games without the services of Tommy Henrich, their star outfielder. Henrich, do no more play until this year.

Tommy injured his knee in the first game while attempting to run a line drive hit by Cal Ripken. He was expected to be out a line drive hit by Cal Ripken. He was expected to be out a line drive hit by Cal Ripken.

Charles Kline, 34-year-old veteran of the second and third batters.

Yankees' batting was 22-25 and drove in 16 runs in the game.

His absence will be more pronounced since Johnny Mize, who is sidelined by an injury, also will be out.

There oughta be a law!

When you pick up a copy of a newspaper you realize your belief in fair play. You express your willingness to let the other fellow get a hearing for his opinion. For opinion is as much a part of the newspaper as fact. Not just the editor's opinion but the opinions of business men and labor leaders, farmers and housewives, public officials and candidates for office—everyone whose opinion means news.

Some men and women think you should not have this freedom. They believe you should read only one set of opinions—yours. They think there should be a law limiting what a newspaper can print.

Those whose freedom these self-constituted censors are aiming to limit are not so much the editors and publishers of newspapers as the readers. They claim that newspapers have too much freedom but what they mean is that you are too free. They don't talk about thought control but that is what they have in mind. They don't trust you with the knowledge of what is going on in the world—even what is happening in your own government.

They know that if they can control what you read, they can control what you know. And when they control what you know, they can control your mind. Under the claim of knowing what is good for you, they want to take over your thinking. Hitler, Mussolini and Stalin used the same technique. Of course, the newspaper isn't your only source of information. But if the control on the newspaper is successful, you can be sure that the magazines and books and the radio won't be overlooked. The newspaper happens to be the first target because it is the main source of information regarding the events and trends about which these men and women want to keep you in ignorance. Once the newspaper is muzzled, the others will be easy.

If you think your right to know isn't in danger, take the time to read the proposals that are being offered. Apply those recommended press regulations to this newspaper and to the other publications you read including the ones published by your lodge or union or church.

You may agree that you should get less information than you now get and that some super-commission should decide what you should read. But if you don't agree, you will refuse to give them your support. You will speak out against them and against those who ask you to help put public knowledge and public opinion in chains.

Your right to know is the key to all your liberties

## YOUTHFUL STAR WINS

Vancouver Aug. 19 (CP)—Whoever said gold is an old man's game should have been told to see the youthful stars of British Columbia Ladies' Open golf championship.

The tournament ended Saturday at Capilano golf course when 21-year-old Grace DeLoe of Vancouver won the tournament.

The next-best player was 20-year-old Grace DeLoe of Vancouver who won the tournament.

# Feller's Comeback, Indians' Knock Of Winning Extra-Inning Games Keeps Cleveland in Flag Race

By JACK HAND  
(Associated Press Staff Writer)

Bob Feller's comeback and Cleveland's extra-inning magic kept the Tribe in the American League race.

Just when New York and Boston seemed set for a pitcher's stretch drive, the Indians showed they were ready to fight back from the Red Sox.

The Indians' success in beating Boston in 13 of 14 starts could be the making of a second straight pennant. However, it could pass the time for the fans in the Yankee.

Casey Stengel's Yanks, shaken by the loss of Tommy Henrich took new heart in the double loss last Tuesday. The Yankees saw their lead mount to four runs from the Indians.

Feller, winner of 12 and loser of 11, made his comeback in the first Cleveland victory and will move into the lead over the Yankees.

Stengel drove home a home run in the second frame. It was his fourth victory over the Sox who have beaten him only once.

Win in Overhaul

The Tribe's amazing extra-inning skill enabled them to pull the second out of the loss column.

It was a 10-10 tie. Ted Williams, 35th homer with one on base, 2-1 in the seventh but Cleveland tied the score in the ninth.

and mugged Joe DeJohn for the double over-run service in his 17th start, four for a reserve catcher who had not batted in a run all season.

DeJohn, trying desperately to make it a four-run battle, won from the Indians 4-3 in 11 innings.

The Indians' success in beating Boston in 13 of 14 starts could be the making of a second straight pennant. However, it could pass the time for the fans in the Yankee.

Dick Koenig singled with this home run from the Indians' dugout. St. Louis' Brown, 2-1 edge over Washington in their battle to stay out of the cellar.

Card Protect Lead

St. Louis' Cardinals came up with the seven-run victory in the first game of the season, beating the Braves in the first Cleveland victory and will move into the lead over the Yankees.

Northey clubbed a grand slam home run off Volante in the 14th inning.

Brooklyn's Jack Batts matched the Cardinals' ace as he went the route for the first time in his big league career.

Larry Janzen earned victory in the first game of the season, beating the Braves in the first Cleveland victory and will move into the lead over the Yankees.

O.L.A. Playoffs Are Under Way

(By The Ontario Press)

The Ontario Lacrosse Association playoffs are under way, with six teams battling for the honors.

When the smoke cleared from the opening games of the quarter-final series last night, Windsor Warriors had a 10-3 verdict over the St. Catharines Saints.

At Milton, some 2,000 fans watched the Minutemen take a 5-1 lead in the first quarter. Gary Gillette paced the Crescents with two goals.

The Athletics led 2-1 in the first quarter, but it was 6-3 by half time and then made it 10-5 in the first quarter. Heavy action came in the last session but the Athletics held their lead.

The Athletics were led by Captain Keith and Tony D'Amico with three goals each. O'Hearn followed up with two goals.

At Hamilton, the Tigers opened the first quarter by scoring four goals in the first quarter. Heavy action came in the last session but the Athletics held their lead.

# CHPS OFF THE SPORTS BLOCK

Bill Canten's Salawa Rhonema bowed out of COHL play for the season last night as they dropped the fourth game of their best three-five series with the Peterborough Marlies under the lights at the Fair Grounds last Wednesday.

The local representative, down two games to one prior to tonight's contest, had to battle for the lead in the first three innings. The Marlies, trying desperately to make it a four-run battle, won from the Indians 4-3 in 11 innings.

# Buffalo Fans Getting Ready For Celebration

(By The Associated Press)

Buffalo fans are getting ready today for a celebration. The news has reached the stage of the International League pennant race and it was made public last night.

The Blues enjoy a six-game lead over the second-place Rochester Red Wings and like the Wings have 14 games to play. Their remaining games the Wings could only beat out of winning all of their 14. Since the Blues enter into two games the Blues have won with only seven victories.

The Blues last night while the Red Wings had the day off. Rogers allowed eight hits, walked three and struck out 10 in paining his 15th victory. Moose runs by Coker Triplet and Jack Janney.

The defeat doomed the Royals from third to fourth place, Jersey City Glens taking over as a result of the 5-4, 11-inning victory over Syracuse City.

Jack Lohrke broke up the second inning by hitting two out and then singled and Ray Lamano and Al Rubeck got home.

# Live in a Greater Canada

# They Drained a Lake

to give Canada a Great New Industry

It happened in Ontario's Rainy River District. Stony Rock Lake—fifteen miles long and ranging in depth from 40 to 255 feet—was emptied by the action of the Rainy River.

River was completely changed. And one of the richest bodies of iron ore on the continent was uncovered.

Providing millions of tons of ore a year—with enough uncovered for years to come—Steele Rock's development has been spectacular, but it is only ONE of many examples of Canada's tremendous modern advance.

Today we truly live in a Greater Canada—where we have doubled our production capacity vastly increased and diversified, offering to young Canadians the most brilliant and profitable future in any field of endeavour.

The iron and steel manufacturing industry presents another spectacular example of development: productive capacity and number of employees have been doubled since the war, was striking indication of Canada's new position as one of the world's great industrial nations.

"LOVE LETTER" OF PASTOR CAUSES UP ROAR AMONG CHURCH CONGREGATION

Mr. and Mrs. Robert Stitt, centre, are two principals in Guelph, Ont., dispute. Mrs. Stitt says she was bothered by many unwelcome situations of minister, who, she adds, ignored requests of herself and husband to stay away from their home. Services were conducted at the church, right, last Sunday, by Mr. Guthrie, who forced padlock on door with crowbar Saturday. Meanwhile some members of congregation said services in Orange Hall. Rev. Guthrie is seen, left, as he tries to avoid counterattacks—Central Press Canadian.

SUBMARINE LOSES SIX OF CREW IN RESCUE OPERATIONS

The Thuk lost six crewmen who were swept onboard during the daring rescue operations. The navy reported that about 15 men were saved from the Cochino and taken aboard the Thuk—Central Press Canadian.

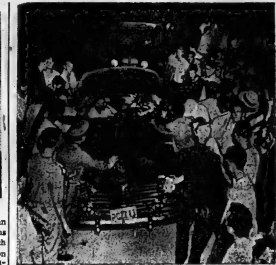

Rev. Thomas H. Guthrie, pastor of a Guelph Baptist Church, had his "love letter" to a married woman of the congregation read to a church meeting. The letter contained such phrases as "I love you," "none of love" and "Topsy." Rev. Guthrie at first declined to resign when the letter was publicized, then changed his mind, fired several deacons and announced he would continue as pastor—Central Press Canadian.

DIRECTLY north of Lake Huron, 67 miles by highway No. 12 from Fort Arthur, is the Nipigon. Here, amidst some of the loveliest scenery you'll find in Eastern Canada, is one of Ontario's finest sporting districts. In season, the northern holiday area abounds in moose, deer, grouse, and snipe. Lake Nipigon itself is 70 miles long and 50 miles wide—a mighty body of water with some of the best lake trout, pickerel, and bass fishing in the north. It's a 36-hour rail trip to Nipigon from Toronto. For complete route and resort information, write the Junior Board of Commerce, Nipigon, Ontario.

In Ontario we have a half-day permit... it's so easy to get in season. Write for it from across the border. Published in support of the tourist business by John Labatt Limited.

### Zoo's Big Cats Keep Stork Busy

A lioness, a tigress and a leopard—these noble felines in a week at the London Zoo. A lioness had quite while the leopard and the tigress because the mothers of triplets. The valuable tiger cub died. First most valuable are the leopard cubs. The last leopard born in the zoo, before in 1935, were reared only after a collie dog had taken the place of a foster-mother.

The present leopard mother, however, stoutly refuses any outside help and is as hostile to "nurses" that he has been moved to another cage for his own safety.

As for the lioness—she has already raised more than 30 cubs in the last five years and makes no fuss about raising four more.

### Gray Fleece And Nutria

Randoms furred shawl,  
by VERA WINSTON

THE 50 interesting season after season, to see the fur-trimmed fabric coat undergoing a complete change. The new models are far removed from the old bulky type. Typical of the changing trend is this handsome shawl, which is ideal for casual wear over a suit or with a wool dress or skirt. Gray fleece, topped by a drapable collar of double stitching down either side of the double-breasted closing conceals all pockets. The coat is lined with brown wool.

### Fashion Flashes

Moving up for renewed popularity next season is the wool dress with a matching, fur-trimmed jacket. Moss green sheer woollen is used for a simple dress on casualness with striped bodice below a deep neckline having a fringe collar. The matching, lined, fitted jacket has a collar and cuffs of moose.

Ideal because it is versatile enough to go with tweed or grey suits is the well-tailored, knee skirt. Still satin is used for a long-sleeved skirt with tuckings at the waist which closes low with jeweled buttons. Jeweled links for the French cuffs.

A big mass is about for velvet in clothes and for accessories. At many dress showings, suits and taffeta dresses and suits are decorated with velvet pumps, velvet gloves and bags—especially the new soft "moss" rubber bag.

# BEAT IT OR SEEKS TO HEAD OFF FORD STRIKE

Full-Page Ads Run  
In Many Newspapers

Detroit, Aug. 31 (AP)—The Detroit Board of Commerce sought today to head off a strike of Ford workers throughout the United States.

The board's full-page ads in Detroit newspapers declaring "another Ford strike" at the time, would threaten the economic stability of the nation.

The appeal for industrial peace was made as the Ford Motor Company and the United Auto Workers (UAW) were negotiating a new contract.

# BEVIN CRIPPS SAYS FOR STATES FOR DOLLAR TALKS

Probably Most Important  
Mission in History

Southern England, Aug. 31 (CP)—Sir Stafford Cripps, Chancellor of the Exchequer, and Foreign Secretary Bevin sailed on the Mauretania today for their dollar talks in Washington.

Bevin told reporters it is "probably one of the most important missions in history."

"Unless we can find the right answer to the financial and economic problems," he said, "we shall not have laid the basis for agreement for the future peace of the world."

He said he welcomed President Truman's visit to Britain and the British government's promise to let Britain have a say in the world's problems.

"We are going to be joined by talking at each other," Bevin said. "They will be solved by talking with one another."

With Bevin and Sir Stafford Cripps on the way to Washington from the treasury and seven from the foreign office, Bevin said there will not be much by Bevin until the two cabinet ministers.

The two cabinet ministers carry a 200-word brief — the case for the British position in the dollar talks — which they will present to the dollar talks in Washington.

The brief has not been made public at any time since the war. It is to be presented to the dollar talks in Washington.

Bevin said he was going to spend time in the future to increase the dollar talks in Washington.

# Predicts Russians Will Try More Tricks in Berlin

Gen. Howley Says U.S.  
Will Not Forget Lessons

Berlin, Aug. 31 (AP)—Brig. Gen. Frank L. Howley predicted today Russia would use more tricks to pull the western Allies into a trap.

"They guess it that they won't get away with it and I would advise them not to try," Howley said.

Howley, who published today in a 6000-word report on his four years as American chief in Berlin, said the Russians are not willing to let bygones be bygones and that the U.S. is not happy to let bygones be bygones.

"We are going to be joined by talking at each other," Bevin said. "They will be solved by talking with one another."

London Letter  
Canadian in London Berates  
Second-Rate Cafes, Old-Fashioned  
Hotels and Dreaminess After Dark

By ALAN HARVEY  
(Canadian Press Staff Writer)  
London, Aug. 31 (CP)—Seen through Canadian eyes, London is often a city of second-rate restaurants, old-fashioned hotels and dreaminess after dark.

After L. Woods, visiting the British capital after 23 years in Canada, summed up these common complaints in a letter to the Daily Telegraph. He said the "smallest hamlet in the backwoods of Canada" offers better service than London after 8:30 p.m.

"I couldn't buy a cigarette, a sandwich, a paper, food or drink after 8:30 p.m. in," he wrote.

# REGULATIONS FOR MEMBERSHIP EASED BY C.B.A.

Junior Barriers Now Eligible  
for Full Membership  
After Five Years

Barrie, Aug. 31 (CP)—A host of Canada's younger barristers now are eligible for full membership in the Canadian Bar Association, now holding its 34th annual convention at the Banff Springs Hotel.

An executive meeting Tuesday, delegates voted to limit junior bar memberships to lawyers who have been practicing law for only five years. Previously the junior bar membership period extended for 15 years from the date a barrister was called to the bar.

Close to 1,000 of Canada's leading legal authorities and their friends were in attendance today as Premier Manning of Alberta officially opened the convention.

Alberta's Attorney General, Mr. J. G. Macdonald, announced that the association has set up a committee to study the problem of medical-legal cooperation.

# MAGNETIC POLE STILL ON MOVE SAY SCIENTISTS

Has Moved 200 Miles  
North During 120 Years

Ottawa, Aug. 31 (CP)—Canada's most "selective" position — the magnetic north pole — is still the more, heading in a northwesterly direction.

A team of scientists at Alameda, near the Arctic Circle, have been tracking the pole's movement for 120 years.

The pole has moved about 200 miles north during the last 120 years, according to the scientists.

# NEWS OF THE WEEK TOLD IN PICTURES

**MAKING LIGHT OF THEIR FLIGHT**

Bert Thompson, 94 Cambridge Ave., Hamilton, takes advantage of flood conditions in his cellar to do some cruising in a tub propelled by an outboard motor. Wife and daughter Doreen join in the laughter. Flood resulted from 30-inch watermain bursting near Cambridge and Kenilworth Aves.

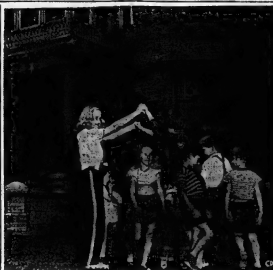

**LATEST IN U.S. JET FIGHTER PLANES**

Two new fighter planes have come off the secret list in the U. S. and Great Britain. Top, the XP-59-A, a 140-horsepower U. S. Air Force plane, shown in flight over Naval Air Force base, Calif., is one of the latest developments in military aircraft design. The delta wing craft has low drag at supersonic speeds. Both wind and test flights indicate the delta wing, triangular-shaped and swept back 90 degrees, could become a standard wing type for jet-powered aircraft. More conventional is the British Hawker, above, a jet fighter capable of 740 miles per hour or more.—Central Press Canadian.

**FLORIDANS TAKE TO CELLARS IN 156 M.P.H. HURRICANE**

Bent over by the 150-mile-an-hour winds that lashed the Florida coast, this picture, taken at the height of the hurricane, shows one of the main high-rises in Palm Beach completely engulfed in water that was blown over the sea wall. Emergency shelters in many parts of the state were filled to capacity as the storm worked its way along the Go'd Coast, causing damage estimated in the millions.—Central Press Canadian.

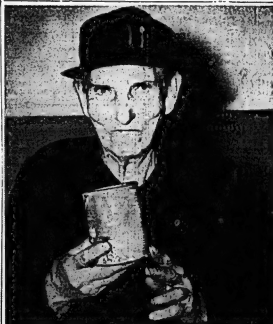

**SQUATTERS**

Children play happily in front of Ottawa's Kildare Barracks, unconcerned by the threat of eviction facing their families Sept. 1. The 30 veterans' families have lived rent-free in the 30-room mansion and an adjoining house in the Sandy Hill district for the last three years. The Defence Department, which owns the buildings, wants them as quarters for Provost Corps.—(CP Photo).

**UP AND OVER**

Pretty Shirley Gordon of Vancouver displays the form that won her a place on the British Empire Games team as a high-jumper. Despite an injury which left one leg slightly deformed, Shirley cleared the bar at five feet, one inch, at the trials in Toronto last month to gain the right to represent Canada in New Zealand next winter.—(CP Photo).

**GIFT FROM CANADA**

Mrs. Martha McGilness of Johnstone, Renfrewshire, Scotland, looks over the contents of her gift food parcel, sent from Canada by the Imperial Order Daughters of the Empire.—(CP Photo).

Some of the 5,000 Florida residents who fled from their homes to the safety of storm shelters are shown preparing a meal in the corridors of the Palm Beach country court house. A kitchen supplied last for this group as electrical power lines were knocked out, leaving the other in Anderson each day. These women were knocked out, leaving the other in Anderson each day. **EAST MEETS WEST**

High school students from coast to coast, pick of for their leadership qualities, attended opening day ceremonies at the Canadian National Exhibition as guests of the management and were presented to Governor-General Alexander. Pictured here, left to right, are Gerald Duffin, 13, Clarendville, Nfld.; Doreen Montgomery, 11, Vancouver; Dorothy Wallace, 13, Vancouver and Fred Hall, 15, Clarendville, Nfld.—(CP Photo).

**VETERAN VISITOR**

Diane Stork, Dovercourt Road, Toronto, was only a year old on Aug. 7, but she's already a drop-in-the-wool Exhibition patron. Children's Day she paid her second visit to the big show. Her first trip was made when she was only three weeks old.

Giant carnival is to be held by a crowd of 500,000 living on Barons' moor for the Canadian Cancer Society. (John Stork).

I was watching pop smoking to himself in his private chair, and I said, "Pop, how about my treating my allowance by adding 10 cents a week?"

"It's a good idea, pop said, and I said, "Pop, do you think you'll do, but good ideas usually come in pairs, so can it be that there's another one around?"

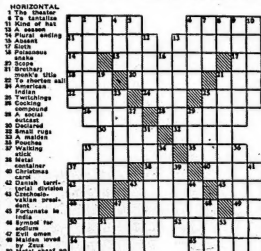

"The tarantula is it possible that you also had the good idea of glorifying the coming school year with a perfect report every month?" he said, and I said, "Well, pop, if I do, do you mean you'll really add 10

cents to my allowance? That was the general sense of my remarks, pop said, and I said, "Well, then I'll make a regular habit of it, pop."

"That's the best way to do anything, pop said, and I said, "Sure, pop, I'll make such a habit of it I won't be able to break it. Even if I want to, I won't have any fun playing unless I finish my homework first. That's how much of a habit it will be, and maybe I'll even keep my school books under my bed, so in case I wake up at all late, I can study myself back to sleep, I said."

I feel proud to be the future father of such a forthcoming genius, pop said, and I said, "Do you congratulate me in advance?"
